

Welcome About CV Gallery Contact Form

Lukas Hofbauer

Welcome

Welcome to my website. My name is Lukas Hofbauer and as you can probably think already, the cat in the photo is indeed **not** me.

On my website there are 5 pages: the welcome page you are looking at right now, an about page where I describe myself, a CV page with my professional CV, a picture gallery full of memes from various meme cultures and lastly a page with a contact form, where you can contact a broke person and ask for advice on money (not recommended).

Hope you enjoy it!

- On all pages should be a header for navigation and a footer with an address.
- In the <main> are two <div> with a class that reduces the background to 80% width and centers it.
- The border of the background is also rounded through “border-radius”.
- In the <div>’s themselves should be a picture of a cat and a welcome text where you get an overview of the webpage. I also changed the text font.

Welcome About CV Gallery Contact Form

About me:

My name is Lukas Hofbauer, I am 21 years old and as a matter of fact, I love food.

In my free time I like to workout and watch drunk guys fight eachother at 2a.m. in the morning while I eat a Döner Kebab at the train station.

Here are some pictures I like regarding the food point:

About me:

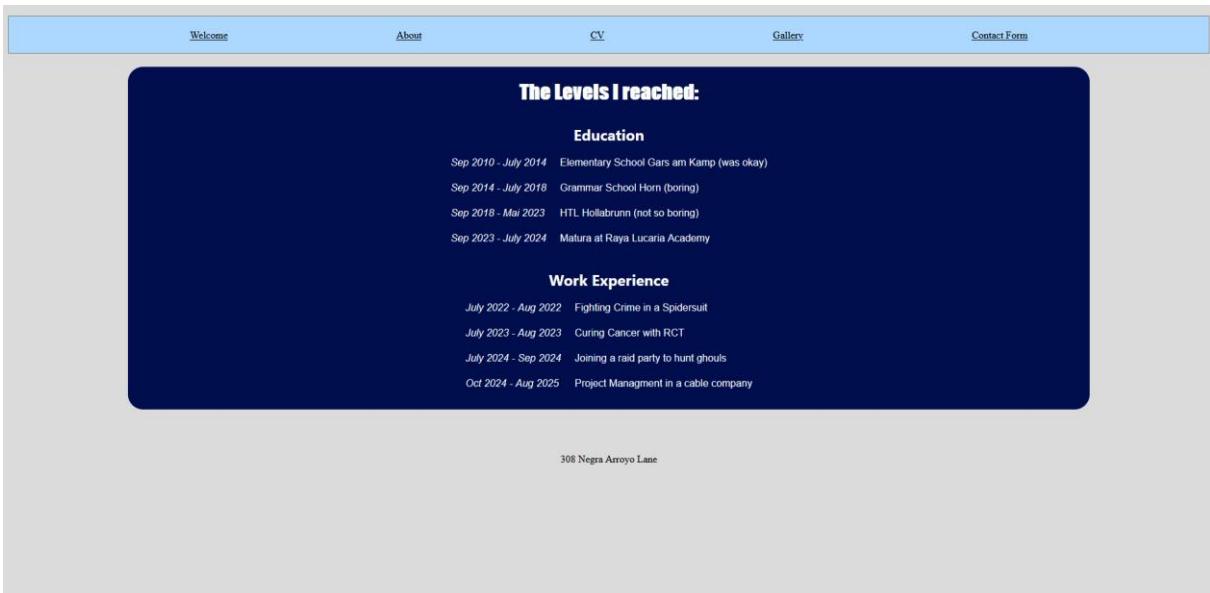

My name is Lukas Hofbauer, I am 21 years old and as a matter of fact, I love food.

In my free time I like to workout and watch drunk guys fight eachother at 2a.m. in the morning while I eat a Döner Kebab at the train station.

Here are some pictures I like regarding the food point:

- On the About-Page “about.html” is a short introduction about me and what I like to do (shouldn’t be taken seriously).
- I also changed the fonts and the font color.
- Lastly, I added three pictures in an tag.

- On the CV page I added a <section> and in the section I added two <table> where I put information about my education and work experience.
- I changed also changed the background, font and color again.

10 of the best Memes of the last years:

Welcome About CV Gallery Contact Form

10 of the best Memes of the last years:

- For the picture gallery “gallery.html” I made a gallery with 10 of my favorite memes.
- I divided the pictures into three `<div>` and splitted it into 4, 4 and 2 pictures.
- I added the class “`galleryPictures`” to the `<div>`’s and turned the display to `flex`.

- For the contact form in “contact.html” I created a `<section>` where I put everything in it.
- I created a `<form>` inside of it a `<fieldset>` and in that I added five `<label>` with different `<input>`’s.
- I set all the `<input>`’s to required, so that you must fill them out to send the form.
- Outside of the `<fieldset>` I added another `<input>` to submit the form.
